

**The Hon Brad Hazzard MP**  
Minister for Planning and Infrastructure  
Minister Assisting the Premier on Infrastructure

Mr Rik Hart  
General Manager  
Warringah Council  
Civic Centre  
725 Pittwater Road  
DEE WHY NSW 2099

13/20719

Dear Mr Hart-

I am writing concerning the Oxford Falls Valley and Belrose North Strategic Review.

The review was initiated to examine the deferred land under the *Warringah Local Environmental Plan 2011* following concerns raised by residents.

I appreciate that this has been a complex process which has included extensive analysis of both environmental and infrastructure constraints, while considering the overall impact land uses may have on the existing character of the area. An important part of the overall process has been consultation with the community.

Permitting additional uses on some land will suitably respond to landowner submissions. However, it is of concern that a large number of landowners objected to the proposed environmental zone being applied to their land, mainly on the basis that the land was cleared and contained little environmental value, as well as the loss of development potential.

On 23 December 2013, Council responded to my earlier correspondence requesting a commitment to undertaking studies as recommended by the Planning Assessment Commission in 2009 effectively being stage 2 of the Strategic Review. The Commission identified that additional studies be undertaken to assess the cumulative impact of potential development and determine the urban capability of the Oxford Falls Valley and Belrose North catchment. It was requested that these studies be completed within a 5 year timeframe (ie. in 2014).

These studies will provide the evidence base to assure the community that the most appropriate land uses, zoning and development controls are being proposed. In light of the above, Council's proposed 3 year timeframe should be significantly reduced. I request Council submit a revised timeframe that is more closely aligned with the Commission's recommendations.

Additionally I request that all land identified in the Strategic Review as having no-to-moderate environmental development constraints and proposed to be an Environmental zone, be further reviewed to validate the environmental significance of the land. The subject land will continue to remain deferred until such time that further evidence based planning is undertaken.

I understand the next steps in the Strategic Review process will be:

- commencement of the studies as discussed above;
- the Warringah Development Assessment Panel (WDAP) will consider all submissions, conduct an independent public hearing and provide an independent report to Warringah Council for consideration;

- following WDAP, the Strategic Review and Submissions Report will be reported to a Council Meeting for adoption; and
- the final recommendations of the Strategic Review, once adopted by Council, will form the basis of a planning proposal to incorporate the deferred lands into the *Warringah Local Environmental Plan 2011*. This planning proposal will be publicly exhibited for further public comment.

I have asked my Department to make the Submissions Report and this letter publicly available to promote an open and transparent planning system.

If you have any further enquiries about this matter, I have arranged for Mr Neil McGaffin, General Manager Metropolitan Delivery, to assist you. Mr McGaffin can be contacted on 02 9228 6162.

Yours sincerely

A handwritten signature in black ink, appearing to read 'B. Hazzard', written over a faint dotted line.

**THE HON BRAD HAZZARD MP**  
Minister
